

# API Selection and Schema Design

APIs to be used in Capstone I

- Twilio SMS messaging: <https://www.twilio.com/sendgrid/email-api>
  - Possible text confirmation when a user signs up for a yoga class
- Twilio Email sending: <https://sendgrid.com/solutions/email-marketing/automation/>
  - Email confirmation for the following:
    - User signs up for a yoga class
    - User creates an account
    - Instructor creates an account
  - This is currently set up in the project and working.

## Schema Design
